Breaking news about the Johnson & Johnson vaccine:
<https://www.cnn.com/2021/02/24/health/johnson-vaccine-fda-analysis/index.html>

Michigan COVID-19 data (MI Safe Start Dashboard): <https://www.mistartmap.info/>
(click New Cases and pick a timeframe using the 1m, 3m, 6m or All buttons, or the draggable gray handle at the bottom of the graph, to see trends in COVID-19 cases per million people over time. This can demonstrate the impact of the Pause to Save Lives announced Nov. 15)

Wayne County Communities' COVID-19 case rates:

<https://um-somerslab.shinyapps.io/dashboard/>

This dashboard was created by Dr. Somers and her students based on data from the county health department. Select any community, or multiple communities, and pick your date range to see the COVID-19 trends weighted for population to give an 'apples to apples' comparison between communities of different sizes. Data go back to March 2020, and the horizontal lines represent the state's letter-based risk levels.

Find COVID-19 testing in Michigan: https://www.michigan.gov/coronavirus/0,9753,7-406-99891_99912---,00.html

MI COVID Alert app: https://www.michigan.gov/coronavirus/0,9753,7-406-99891_102592---,00.html *(When downloaded and activated, it will let you know if you've recently been near someone who later tested positive for COVID-19, if they also had the app installed and active.)*
